Our Foundational Belief

THE CORE 'WHY'

"Businesses shouldn't have to become technology companies to benefit from technology. Technology shouldn't be something businesses struggle to figure out. It should make business easier."

Our Core Ambition

VISION

To help move Nigerian businesses into the digital economy and build the robust infrastructure, automation, and reliable systems that make sustainable economic expansion possible.

The One-Sentence Essence

IDENTITY

A smart, capable technology partner who makes complicated digital problems feel simple.

01 • STRATEGIC FOUNDATION

Market Problem & Positioning Principle

Positioning principle: Never sell "websites" as the identity of the company. Sell the business outcome—getting organizations online, making operations digital, and creating the infrastructure required to scale.

The Market Problem in Nigeria

LANDSCAPE

Nigeria is rapidly digitizing, but countless enterprises still operate through an inefficient patchwork:

- **Disconnected Operations:** Heavy reliance on WhatsApp chats, informal spreadsheets, manual bank transfers, and uncoordinated logistics.
- **Outdated Web Presence:** Websites that are slow, insecure, non-responsive, or impossible for staff to maintain.
- **Lost Revenue & Friction:** Customers cannot discover, book, or pay online seamlessly.
- **Manual Overhead:** High employee burn rate handling repetitive orders, records, and client inquiries by hand.
- **Implementation Confusion:** Leadership knows digitization is vital, but lacks technical clarity on what to build first.

6 Differentiation Pillars

COMPETITIVE EDGE

01. Business-First

We begin with commercial ROI, not abstract code or technical hype.

02. End-to-End

From discovery portals to deep back-office database automation.

03. Local Realities

Engineered for Nigerian payment gateways, low-bandwidth, and consumer habits.

04. High Accessibility

Accessible to growing startups while robust for corporate institutions.

05. Long-term Partner

Continuous optimization, maintenance, and advisory post-launch.

06. Future-Proof AI

Modern cloud architectures, AI automation, and scalable systems.

02 • OFFER ARCHITECTURE

Digital Maturity Matrix & Productized Solutions

Segmentation is organized by digital maturity and business complexity rather than company size alone. We turn bespoke development into predictable, high-value productized offerings.

TIER 01

AlphaTNX Launch™

Establish Presence

High-converting website, custom domain, professional business email, local SEO, and WhatsApp integration.

TARGET: Early / OffLine

TIER 02

AlphaTNX Commerce™

Sell & Collect Online

Product catalogs, Paystack/Flutterwave integration, automated order tracking, and inventory syncing.

TARGET: Growing SME

TIER 03

AlphaTNX Automate™

Eliminate Manual Work

CRM pipelines, AI automated customer responses, multi-app webhooks, and spreadsheet-to-database sync.

TARGET: Mid-Sized Biz

TIER 04

AlphaTNX Custom™

Bespoke Systems

Tailored web applications, client portals, custom APIs, internal dashboards, and enterprise databases.

TARGET: Established Corp

RETAINER

AlphaTNX Partner™

Ongoing Capability

Dedicated monthly engineering hours, uptime monitoring, proactive security updates, and digital strategy.

TARGET: All Recurring

03 • VERBAL IDENTITY

Brand Personality & Copywriting Standards

We sound like experienced professionals who understand technology AND understand business. We speak clearly, eliminate vanity buzzwords, and focus on practical outcomes.

01. CLEAR

Zero jargon. Simple explanations.

02. CAPABLE

Deep technical mastery proven in execution.

03. PRACTICAL

Solve actual daily business bottlenecks.

04. FORWARD

AI-driven, automated, scalable foundations.

05. HUMAN

Partnership-driven, empathetic, approachable.

Copywriting Benchmark: Say This vs. Not That

EDITING STANDARD

CONTEXT / TOPIC	WE SAY (CLEAR, OUTCOME-DRIVEN) DO	WE AVOID (JARGON-HEAVY / VAGUE) DON'T
Web Presence	"We build fast, credible websites that help customers find you, trust you, and buy from you."	"We leverage responsive frontend frameworks and hyper-converged web stacks."
Automation	"We replace repetitive spreadsheets and manual WhatsApp tasks with automated workflows that save 15+ hours weekly."	"We orchestrate holistic digital transformations to maximize synergy."
E-Commerce	"We build a store that lets Nigerian customers order and pay in Naira automatically 24/7."	"We deploy end-to-end transactional multi-channel paradigm systems."
Technical Support	"We act as your dedicated digital team so you never worry about servers, downtime, or security."	"We offer SLA-governed infrastructure oversight routines."

04 • LOGO SYSTEM

Logo Construction & Clear Space

The AlphaTNX identity mark is an isometric hexagonal monogram embodying a digital building block, dimensional stability, and the gateway to connected operations.

Primary Horizontal Lockup

MASTER ASSET

ISOMETRIC HEXAGON

30° angle isometric cube projection forming an abstract 'a' monogram.

DUAL WORDMARK

Bold geometric 'AlphaTNX' paired with widely tracked 'DIGITAL'.

Clear Space & Construction Grid

METRICS

Clear Space Requirement: Maintain an exclusion zone equal to the inner hexagonal radius (X) around all four sides of the lockup. No graphic or typographic element may enter this perimeter.

Digital Min: 120px (Full) / 24px (Mark)

Print Min: 30mm (Full) / 8mm (Mark)

05 • INTEGRITY STANDARDS

Authorized Colorways & Misuse Rules

To preserve brand recognition and equity, use only authorized colorways. The logo mark and lockup must never be modified, distorted, or reconfigured.

Full Color on Light
Primary Default

White Knockout
Dark Backgrounds

Solid Black Mark
Single-Color Print

Standalone Mark
App Icons & Avatars

Strict Logo Violations & Misuse Rules

PROHIBITED

DON'T

Do Not Stretch or Distort

Never alter aspect ratio or skew the isometric geometry.

DON'T

Do Not Change Palette

Never apply unapproved gradients, neon, or tertiary tones.

DON'T

Do Not Rotate the Mark

The isometric vertical axis must always remain at true 90°.

DON'T

Do Not Re-typeset

Never substitute fonts or alter the tracking of DIGITAL.

DON'T

No Heavy Drop Shadows

Never add realistic 3D bevels, glows, or heavy drop shadows.

DON'T

No Busy Backgrounds

Never place on low contrast or cluttered photographic textures.

06 • COLOR ARCHITECTURE

Core Color Palette & Specifications

The AlphaTNX color palette pairs deep obsidian and midnight foundations with vibrant electric blue and bright sky accents, projecting precision, authority, and technological momentum.

Obsidian Base Base Canvas	Midnight Card Structure	Electric Accent Brand CTA	Bright Sky UI Highlights	Ice White Light Surface	Crisp White Contrast Text
HEX#050F2C	HEX#0A1B5C	HEX#1948EB	HEX#3266FF	HEX#F7F9FF	HEX#FFFFFF

#3266FF text on #050F2C: 5.1:1 (AA Pass)

Brand Fonts & Hierarchy Scale

Our type system combines **Plus Jakarta Sans** for clean, confident corporate and user-interface legibility, and **JetBrains Mono** for technical data, metadata, and infrastructure metrics.

Primary Brand Face: Plus Jakarta Sans

PRIMARY UI & EDITORIAL

Aa Bb Cc Dd Ee Ff Gg Hh 0123456789

A modern geometric neo-grotesque crafted for clean digital readability and authoritative print delivery. Used for all primary headings, body copy, and UI controls.

Technical Face: JetBrains Mono

CODE & METRICS

ABCDEFGHIJKLMNOPQRSTUVWXYZ 0123456789 [0x4A]

Engineered monospace for code blocks, infrastructure diagrams, tags, labels, and analytical metrics.

Type Hierarchy & Scale

SPECIFICATIONS

ROLE / ELEMENT	SIZE / WEIGHT	TRACKING / LEADING
Display H1	28pt - 36pt / Bold 800	-0.03em / 1.15
Section H2	18pt - 22pt / Bold 700	-0.02em / 1.25
Card Header H3	12pt - 14pt / SemiBold 600	-0.01em / 1.35

Body Regular	8.5pt - 9pt / Regular 400	0em / 1.50
Data / Tag (Mono)	7.5pt - 8.5pt / Medium 500	+0.05em / 1.20

08 • GRAPHIC LANGUAGE

Visual Assets, Grids & 3D Language

Our graphic language visualizes the invisible architecture of digital business—isometric blueprint grids, luminous data pathways, and layered geometric prisms.

Isometric Grid Blueprint

FOUNDATION

30°/60° architectural line networks representing precision engineering, system mapping, and organized data routing.

Layered Glass Prisms

MODULARITY

Floating glass cubes with internal glowing circuitry visualize modular system components and connected microservices.

Connected Network Nodes

INTEGRATION

Luminous node constellations reflect seamless integrations, API webhooks, and multi-platform data synchronizations.

Iconography & Interactive UI Components

All iconography is constructed on a 24×24dp grid using a consistent 2px stroke, 1.5px corner rounding, and purposeful geometric clarity.

Core Icon Set & Grid Rules

24×24dp • 2px STROKE

LAUNCH

COMMERCE

AUTOMATE

CUSTOM

Icon Principles:

Always maintain consistent live stroke weights, avoid complex internal fills, and use 100% vector SVGs for crisp screen scaling.

Interactive Buttons & Design Tokens

UI COMPONENTS

Primary Action:

Get Started →

Secondary Action:

Explore Solutions

System Status:

• ALL SYSTEMS OPERATIONAL

10 • ART DIRECTION

Photography & Visual Mood Direction

Our imagery balances two interconnected worlds: **Human Leadership** (forward-looking Nigerian entrepreneurs and executives) and **Digital Infrastructure** (modern server hubs, clean interfaces, and glowing pipelines).

Infrastructure Scale

SERVERS & CLOUD

Modern data centers with deep navy illumination and electric cyan circuitry show reliability and industrial strength.

Commercial Acceleration

METROPOLITAN

Metropolitan business skylines integrated with ground-level data grids demonstrate economic empowerment across Nigerian markets.

Handheld Simplicity

MOBILE UI

Intuitive mobile interfaces connecting business owners to live operational metrics and revenue dashboards.

11 • BRAND APPLICATIONS

Stationery, Cards & Office Environments

Physical brand touchpoints reinforce executive confidence, technological craftsmanship, and understated luxury.

Letterheads & Invoicing

[PRINT SUITE](#)

Deep navy cotton-textured stock with spot gloss UV foil logo highlights on executive corporate correspondence.

Executive Business Cards

[CARDS](#)

Dual-finish duplex cards: front deep Obsidian with embossed 3D logo, back crisp white with custom dynamic QR portal link.

Acrylic Reception Signage

[SIGNAGE](#)

Dimensional frosted acrylic signage with standoffs and precision-engraved company tagline.

12 • ASSET SPECS & GOVERNANCE

Campaign Posters, App Ecosystem & Governance

Maintaining a cohesive digital presence and ensuring strict brand compliance across all internal and public-facing touchpoints.

Campaign Posters: "Digital Infrastructure"

MARKETING

National B2B campaign series targeting enterprise leaders, combining human portraits with architectural 3D tech infrastructure.

Asset Deliverables & File Types

FILE MASTER

FORMAT	COLOR MODE	INTENDED APPLICATION
.SVG / Vector	RGB	Web applications, portals, and UI icons
.EPS / AI	CMYK / PMS	Signage, packaging, offset print collateral
.PNG (300dpi)	RGB Alpha	Slide decks, document exports, email
